

VI Seminário Internacional

TEORIA SOCIAL COGNITIVA EM DEBATE

28 a 31 de julho de 2025, Unesp, Rio Claro - SP 

The International Symposium – Social Cognitive Theory in Debate is a biannual event that, since its first edition in 2015, has aimed to share new ideas, disseminate research findings, and discuss applied knowledge by researchers and professionals guided by Social Cognitive Theory.

The 4th edition, held in 2021, was dedicated to Professor Emeritus Albert Bandura, the year of his passing. In its 6th edition, to be held in July 2025, the symposium will once again honor Professor Bandura, marking the centenary of his birth.

The event will be hosted by São Paulo State University (UNESP), in Rio Claro, Brazil, and will feature special participation from Mary Bandura and other distinguished international scholars.
